

One Call Technology Joins Spring Hill Chamber of Commerce

One Call Technology is excited to announce its membership in the Spring Hill Chamber of Commerce, marking a significant step in strengthening its ties with the local business community. As a provider of business phone systems and managed telecom services, One Call Technology is committed to supporting the technological needs of businesses in Spring Hill and the surrounding areas.

By joining the Chamber, One Call Technology aims to collaborate with fellow members, participate in community events, and contribute to the economic growth of the region. This partnership reflects the company's dedication to fostering strong local relationships and delivering reliable communication solutions to businesses of all sizes.

NEW SERVICE *of the Quarter*

One Call Technology has broadened its service offerings to include comprehensive cybersecurity solutions, enhancing its role as a full-service IT provider. This expansion addresses the growing need for robust digital security measures in today's business environment.

Their cybersecurity services encompass a range of protective measures, including endpoint and network security, automated detection and response systems, and risk and compliance services. These services are designed to proactively identify and mitigate threats, ensuring the safety of clients' data and systems.

With this strategic move into cybersecurity, One Call Technology positions itself as a one-stop solution for businesses seeking both communication and security services, offering peace of mind in an increasingly digital world. If you would like to receive more information please contact us at @sales@onecalltech.com or scan the following QR Code.

Tech Tidbits

One Call Technology's hosted phone service offers a cloud-based communication solution that eliminates the need for on-site phone systems. With features like auto attendants, call forwarding, voicemail-to-email, mobile integration, businesses gain flexibility and scalability — perfect for hybrid work environments. Plus, with 24/7 support and robust redundancy, you can count on crystal-clear calls and minimal downtime.

Stretch Zone

For more information please contact us at any of the following locations:

Brentwood	615-891-1600
Franklin	615-721-5190
Murfreesboro	615-900-3290
Thompson's Station	615-241-9900

Have you gotten your free stretch from Stretch Zone? Wondering what Stretch Zone is and can do for you? You're not alone. Depending on your body and goals, a Stretch Zone practitioner will work with you to increase flexibility, agility, and balance, all while reducing pain. We do this through our proprietary Practitioner Assisted Stretching.

Prior to each stretch your practitioner will ask what areas you'd like them to focus on and then get to work. In order to achieve the most effective stretching, you will be securely attached to the table. During each stretch you will guide the practitioner with a 3-5-7 rating of how deep the stretch with the goal of increasing your mobility over time. You'll find with regular visits, what was once your 7 will become your 3!

If you're looking for better functional use of your body including feeling lighter, relieving stiffness and soreness, improving range of motion and enhancing athletic performance, you have nothing to lose by calling one of our locations and asking to schedule a free stretch! All our practitioners go through significant training and have backgrounds in health and fitness so they can help their clients improve their quality of life.

Moving Beyond POTS with One Call Technology

Traditional POTS (Plain Old Telephone Service) lines are being phased out, leading to rising costs and declining support. These include some of the most basic lines such as security, fax and elevator lines.

One Call Technology ensures your business stays connected...

Upgrading to modern, cloud-based solutions with One Call ensures your business stays connected with greater reliability, flexibility, and advanced features like voicemail-to-email, call analytics, and mobile integration. Don't wait for your POTS lines to go dark. Future-proof your communications today with One Call Technology.

EMPLOYEE SPOTLIGHT

Getting to Know Josh Burton, President of One Call Technology

Josh Burton serves as the President of One Call Technology, a telecommunications firm based in Franklin, Tennessee. He graduated from the University of Southern Indiana in 2005 and has since been instrumental in providing hosted/cloud phone systems, internet services, and structured wiring solutions to businesses in Middle Tennessee.

Under Josh's leadership, One Call Technology has become known for its commitment to reliable communication solutions and exceptional customer service. The company has played a crucial role in supporting local businesses, especially during challenging times like the COVID-19 pandemic, by enabling seamless remote work capabilities.

Josh's dedication to the community is further exemplified by his involvement in local chambers of commerce, including the Spring Hill Chamber of Commerce and the Maury County Chamber.

With a focus on innovation and customer satisfaction, Josh Burton continues to lead One Call Technology in delivering top-notch telecommunications services to the region.
